

UMMMMMM

DISASTER

Understanding **My Model Might Make Mistakes... DISASTER**

- * Missing Satellites
- * Core Cusp
- * Too Big To Fail
- * Outliers/Inliers
- * Plane of Satellites (or not?)
- * Line Shape problem ****BRAND NEW****
- * Photon Underproduction Crisis

LEAKY Galaxies

Lyman continuum **Emission Around Kiloparsec-sized Young Galaxies**

- * Where do the photons come from - do mergers matter?
- * Low redshift vs high redshift

CHEMISTRY

Characterising the **Homogeneity of Every Metal, Including STars and Recombination lines in Young galaxies**

- * Variability within galaxies
- * Importance of mixing in simulations
- * Low redshift vs high redshift

BIG DEAL Galaxies

Black holes **Impart Great Doses of Energy, and Affect Little Galaxies**

- * How common are black holes in small galaxies
- * Key issues affecting their evolution

STUPID Sessions

Sleeping - **That's Undoubtedly Preferred Instead of Discussion Sessions**
